San Francisco, Cal., Jan. 29th, 1875. MR. EDITOR: We are reminded by the weekly perusal of your valuable paper of a duty we owe to the good people of Bloom field, whom we hold in such pleasant re collection. If we are permitted to travel in lauds remote from our birth place te receive impressions under peculiar circumstances that new associations alone can develop, we are bound as it were to impart of our information even if it be but little, for the good of these was in turn may be blessed with equal advantages in this line, Thus will our own field of knowledge and usefulness be increased, and our interest in the improvement of all minds quickened. Shortly after my arrival I had intended picturing to you in glowing colors the beauties of Californian scenery, the delightfulness of the climate, the wealth and resources of the State, the opportuni ties for success that were opening up to the industrious and enterprising of all nations and enlarging generally upon numerous minor points, felating to matters of inter

est occurring upon the Pacific Slope. After some deliberation I thought it ad visable to curb my spirits for awhile to discover whether the first impressions that are made upon a stranger as he enters a new country can be relied upon for accuraev. On the whole I am satisfied that erfoneous deductions are not so hable to result TILTON'S ATTENDANCE ON DIVINE WOR from such a course, and I feel more free to SHIP HIS EXAMINATION OF MRS. Wood lay before your readers a few facts that have come before me while engaged in my ADE IN THE EAST RIVER - "WHERE'S special field of observation. The plenti ful rain fall of the "wet" season of 1873 Thursday, the twenty-eighth day of the and 1874 was the cause of great rejoicing on the part of mining, agricultural and herding communities, and the prosperity of these regions, was the source of no httle the plaintiff, were manifestly seekers after business life in all the larger town and cities that land any claims to holding the Mr. Evarts resumed his reading of the post of a distributing point or centre for the surrounding country. An unusual activity was prevalent in almost all departments of trade, and the, demand for artiin sections and interrogated the atness on zans and laborers outran the supply. A bountiful barvest had just been reaped, the prospects for a large vintage were never better, the spring wool clip had come into out this the learned counsel declined to market pretty clean, and commanded very permit, whereupon Mr. Tilton made haste remunerative prices, quickellyer was daily to forget its contents; and though Mr rising in value, and new mines were con-Evarts sought to fix its paternity even as stantly being opened up in sections of the the witness himself had sought to fasten country but little prospected. Numerous that of Ralph, the witness persisted in for gold and silver mines on account of the getting all about it. He was good enough chespness of American and foreign from to recognize the style when specially et and the low rates of freight brought about City Controller, Common Council and without the knowledge of the esteemed any nuisances known to exist, to reform consideration of your past gratuity, and ratic as peculiarly his own however, so by a strong competition between the overtha what he denied positively he admit | fand railroads and the steam fep and clipted inferentially, which amounted to just per lines were ordering hoisting and pumping machinery, to allow them to sink deep-His imperfect memory has been account. er and to run their drilts and tunnels furd for on the reasonable ground that the ther into the bowels of the earth in search charge contained in the true story was far of the precious metals. And the State less grave than that contained in the seemed to be miking daily progress in the monthly "statements" with which Mr introduction and development of various lilton, like a good book keeper, has manufacturing industries. Apparently steadily supplied the public. Exactly one of the grandest undertakings of the how the truth at that time is to be made to year was that of the erecti n of the Palace correspond with the truth thereafter con Hotel, an enormous brick structure, covercerning the same facts and as held by the ling over a block of ground and rising same party, does not yet appear, and the groudly to a heightr of seven stories. prediction is that it will be like the good Mesars. Sharen and Ralston, two of our time -" a long time coming." Of course most enterprising and successful business he true story contained a sketch of Mr | mer, set themselves dillgently to work and Tilton's mother in law, nor was the writer, soon had a force of 1500 men employed in disposed to make it a brief one. Remorse. various capacities about the building the lessly he served up Mrs. Morse as a lunatic weekly wages of whom amounted to from and gave ample space and attention to the \$20,000 to \$20,000. The walls went up as details of Col. Motse calleged strangula it by magic. Hundreds of thousands of bricks came pouring in from the numerous The irrepressible Bowen, who like a pith brick yards about the country, but there witch can not be made, to lie down, and was not sufficient to keep the masons busy Oliver Johnson are delly attended to in the and several times they were forced to same paper, while Mr. Mutual Moulton's await the arrival of a new cargo from fiery hair casts many reflections upon it. Stockton or Sacramento. While the dry season lasted, from April to October, the the work was pushed rapidly along with scarcely an interruption, and some weeks since the building was roofed in at the ed that Mr. Tilten would not sign at be from the ground floor and 131 feet from Sometimes I am referred to. "Mamma cause he had not then received his money the basement. To give you a slight con-Harry has dust on his glasses can't he rub from Mr. Bowen. It is due to Mr. Tilton ception of the size of the structure; please to state that be denies this fact, though imagine how long a single man would be When I hear a person criticising another; it might have been about the time that the occupied in shutting the four thousand When I hear a person criticising another, it might have been about the time that the condemning perhaps a course of action he 'God of battles' was great within him knows nothing about, drawing interences and he may have preferred the 'day of their thirty-two thousand keys, eight keys
